WORK EXPERIENCE

Software Development Intern — Targeticon Digital Services Pvt. Ltd. May 2026 – July 2026

Noida, Uttar Pradesh

- Developed a **full-stack community platform** featuring **posts, comments, likes, follows, and image uploads**, delivering a complete social networking experience.
- Designed and implemented a **relational database schema** to efficiently manage user interactions, content relationships, and media storage.
- Built and integrated backend APIs with the frontend, enabling seamless CRUD operations, authentication workflows, and real-time user interactions.
- Collaborated with the development team throughout a **45-day internship**, applying software engineering best practices to build scalable web application features.

PROJECTS

HireOn – AI Interview Application | [GitHub](#) *React.js, Node.js, Firebase, Gemini API, Auth.js*

- Built an AI-assisted interview platform featuring **3+ core workflows** including role selection, mock interviews, and AI-driven feedback.
- Integrated **Gemini API** to dynamically generate interview questions and conversational follow-up responses based on user input.
- Implemented secure authentication using **Auth.js** and **Firebase**, enabling protected sessions and persistent user data.

AI Resume Analyzer | [GitHub](#) *React.js, Node.js, Gemini API*

- Developed an AI-powered resume evaluation platform that compares resumes against job descriptions using **multiple evaluation criteria**.
- Integrated **Gemini API** to generate resume scores, keyword matching, ATS-style feedback, and personalized improvement suggestions.
- Designed responsive workflows supporting resume upload, AI analysis, and structured feedback visualization in a **single-page interface**.

Beam – Real-Time Chat Application | [GitHub](#) *React.js, Node.js, Express.js, MongoDB, Socket.io*

- Engineered a full-stack real-time chat application with **4+ messaging features** including instant messaging, typing indicators, online presence, and authentication.
- Integrated **Socket.io** to enable low-latency bidirectional communication for real-time user interactions.
- Implemented **JWT-based authentication** and optimized MongoDB collections for scalable storage of users, conversations, and messages.

TECHNICAL SKILLS

Frontend: React.js, Next.js

Backend: Node.js, Express.js, REST APIs

Languages: C++ (Primary), JavaScript, Python

Databases: PostgreSQL, MongoDB, MySQL, Redis

Tools & Platforms: Git, GitHub, Netlify

Soft Skills: Technical Leadership, Problem Solving

EDUCATION

Vellore Institute of Technology Chennai, India

B.Tech in Computer Science and Engineering | CGPA: 8.78/10 2023 – 2027

DAV Public School Uttarakhand, India

Senior Secondary Certificate (Class XII) | 93.8% 2023

LEADERSHIP EXPERIENCE

Web Developer – HackClub VIT Chennai

Mentored junior developers on frontend best practices; regular updates made on club website. Aug 2024 – Aug 2025
